---

## Summary

I'm a passionate Full-Stack Developer with hands-on experience in both Front-End and Back-End development. I enjoy turning ideas into functional, user-friendly web applications. My toolkit includes JavaScript, Node.js, Express, MySQL, React, Vite, HTML, and GitHub. I love solving complex problems, building clean and efficient code, and collaborating with others to create impactful digital solutions.

## Experience

### Freelance Full-Stack Web Developer

Various clients worldwide — 2025 to Present

- Built responsive web applications using React (Vite), Node.js, Express, and MySQL.
- Integrated authentication with JWT, implemented RESTful APIs, and created interactive UI components.
- Deployed projects to modern hosting platforms and set up CI/CD workflows with GitHub.
